Dear Hiring Manager / To whom it may concern,

I am writing to express my interest in the job role of Software Developer in your company. I learned about your company through the Training & Placement Cell at our college, and after visiting your website I have immersed myself in your groundbreaking work in the IT industry and more precisely in the Artificial Intelligence domain.

Currently majoring in Computer Science, I will be receiving my masters degree in next spring. While I have a comprehensive technical background, my true passion is about Python language. I feel that your company places prominence in the similar areas and having the privilege of serving as an employee will increase my learning opportunities and give me the exposure I need to advance my career while using what I have already learned to make an impact on your clients. And I believe with right guidance I can achieve my goal.

I would love to meet you and discuss more about the working opportunities you have available. Please let me know if you have any questions or would like to see specific work samples. You can reach me by phone at +91 8670368777 or by email at suvankar_das@outlook.com.

Thank you for your consideration.

Sincerely,

Suvankar Das
